Strategy Overview

The Main Management International Portfolio seeks to achieve long term capital appreciation by investing in passive non-U.S. country equity indexes through Exchange Traded Funds (ETFs). Main employs a top-down region and country analysis to identify undervalued economic regions, countries and sectors using the vast international experience of their Advisory Board combined with a rigorous fundamental analysis focusing on each country's GDP, forward growth estimates, market cap/GDP ratio, current account/GDP ratio and PEG ratios.

Objectives

The objective of the International Portfolio is to outperform the MSCI All Country World Index ex U.S. over a full market cycle while maintaining below benchmark risk.

Structure and Fees

Separate account with minimum investment of \$2,000,000.

Notes and Disclaimers

Main Management, LLC (“Main Management”, or the “firm”) is an investment adviser registered under the Investment Advisers Act of 1940. The firm was founded in 2002 and provides investment management services primarily to high net worth, family groups, and foundations/endowments.

The information contained herein was prepared using sources that the firm believes are reliable, but the firm does not guarantee its accuracy. The information reflects subjective judgments, assumptions and the firm’s opinion on the date made and may change without notice. The firm is not obligated to update this information. Nothing herein should be construed as investment advice or a recommendation to purchase or sell securities. The information is not intended as an offer to provide advisory services in any state or jurisdiction where such offer would not be permitted under applicable registration requirements. All equity investing entails risk of loss. The firm cannot assure any potential client that it will achieve the investment objectives discussed in these materials. In addition, potential clients should not assume that their returns, if any, will be comparable to returns that the firm earned in the past.

In preparing this material, Main Management has not taken into account the investment objectives, financial situation or particular needs of any individual investor. Many securities transactions are risky and are not suitable for all investors. All securities investments carry risk, including a risk of loss of principal.

Recommendations that the firm makes in the future may not equal the performance of the securities mentioned in this information, if any, or even be profitable at all. Securities mentioned herein do not represent all of the securities purchased, sold or recommended for the firm’s clients. Upon request, Main Management will furnish a list of all securities purchased or sold on behalf of clients within the last year.

The firm and its clients, affiliates and employees may, from time to time, have long or short positions in, and buy or sell, the securities or derivatives (including options) thereof, of the ETFs mentioned in these materials and may increase or decrease their positions.

Composite Definition: The objective of the International Portfolio is to outperform the MSCI All Country World Index ex U.S. over a full market cycle while maintaining below benchmark risk.

Performance Notes: Equity composite performances are unaudited.

Reported returns include all realized and unrealized gains and losses, all dividends and interest income and expense and all transaction costs. Performance results are net of management fees and commissions for each relevant strategy. Management fees are payable in arrears in quarterly installments at the beginning of each calendar quarter and are based on a percentage of net assets in each client’s portfolio. Trade date accounting has been used to value the composite throughout the periods presented. Valuations and returns are computed and stated in U.S. dollars. Upon request, Main Management will furnish additional information regarding the firm’s policies for calculating and reporting returns. Past performance does not guarantee future results.

Benchmarks are unmanaged and do not take transaction costs or fees into consideration. It is not possible to invest directly in a Benchmark. Performance figures assume reinvestment of dividends and capital gains.
